

TRITON

COMBINATION Disc & Tyne Cultivator with Roller

The TRITON combines a Speed Disc's ability to cut & bury crop residue and give a full width soil loosening, along with a Deep Cultivator's ability to improve water absorption & reducing soil compaction all in **ONE PASS**. And since it is fitted with a rear roller, it leaves the field nice & level without big clods.

- ◆ Working speed of 8 - 12kph / Transport max 20kph
- ◆ Working depth of 30-350mm
- ◆ 2 rows of front discs, 2 rows of shanks, a set of levelling discs & a roller
- ◆ Very low maintenance with a minimum number of lubrication points
- ◆ **Fitted with a versatile Double Ring Roller as standard**
- ◆ Hydraulic fold down stabilizer leg on the hitch for easy unhooking / hooking up
- ◆ Frames made with eXtra STEEL line technology for maximum strength
- ◆ Options including larger discs, different rear rollers, & different chisel points
