

The Serafin Eco Folding Speed Disc model is revolutionising the speed disc market. No longer do you need to spend a fortune for top-tier performance. With its smart yet straightforward design, maintenance-free disc hub bearings, and sturdy frame, it excels in soil preparation before sowing, light tillage, and stubble management. This model boosts productivity and ensures a level finish with consistent results. Plus, its narrow road transport feature makes moving it between jobs a breeze. For a high-performing, easy-to-use, and cost-effective solution, the Serafin Eco Folding Speed Disc range is the smart choice.
